The program is professionally printed by modern offset lithography with your advertisement composed by attractive phototypesetting. We will follow your layout suggestions whenever practical, using our best judgment. Please type or print copy clearly.

DeMolay and/or the printer cannot be responsible for the accuracy of handwritten copy. Advertising rates do not include special work, such as artwork, layouts, photos, screens, effects or specific type faces. Often a letterhead, business card or advertising literature can be used for logo artwork, if it can be photographed.

Artwork you furnish can be used without additional charge if it is black and white or red and white, flat printed (not raised or engraved) same size (copy can be raised to fit for \$1.00 extra), not screened or toned, not reverse printing (called white on black).

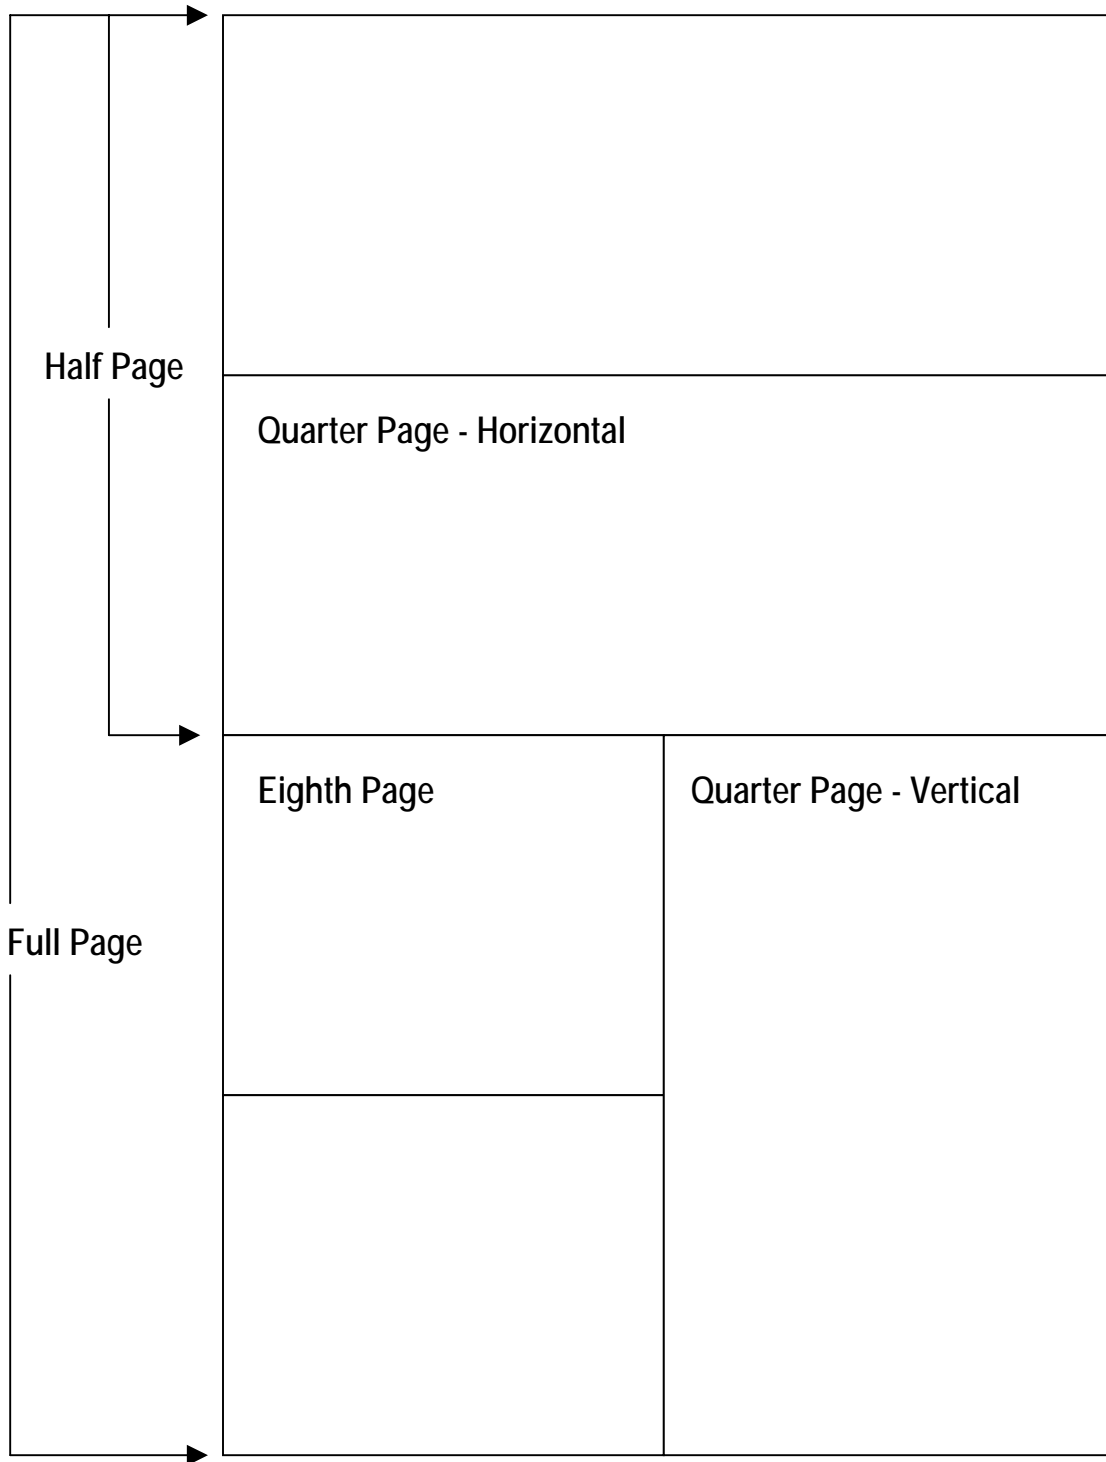

Advertising copy clipped from the phone book can usually be reproduced for \$1.00 additional. Other art submitted which does not meet these standard specifications will be used only if practical. If you want an estimate on the cost of extra artwork, check here. _____

Photographs can be used at an additional cost of \$10.00 each. Glossy black and white prints reproduced best. Other photos are subject to our approval. Reduction of photos down to 1/4 " original size is included in the \$10.00 cost.

Be sure your artwork fits the ad size. If you are sending camera-ready or clipped art, check to be sure it conforms to ad size and shape. Do not fold, staple or mark on artwork being furnished. Work on your ad will be started upon receipt of your copy. If you require alterations later, you will be billed at net cost of these revisions.

This contract constitutes the complete agreement and no other agreement, verbal or in writing or otherwise implied shall be binding. The publishers hereby reserve the right to reject or revise any advertising copy furnished by the advertiser under this agreement. No copy may be used and no product or service may be advertised which is in conflict with the principles of the Order of DeMolay.
